

TRANSFORMING OUR WORLD:

AΩ

**THE 2030 AGENDA FOR
SUSTAINABLE DEVELOPMENT**

UNITED NATIONS

Definition of Sustainable:

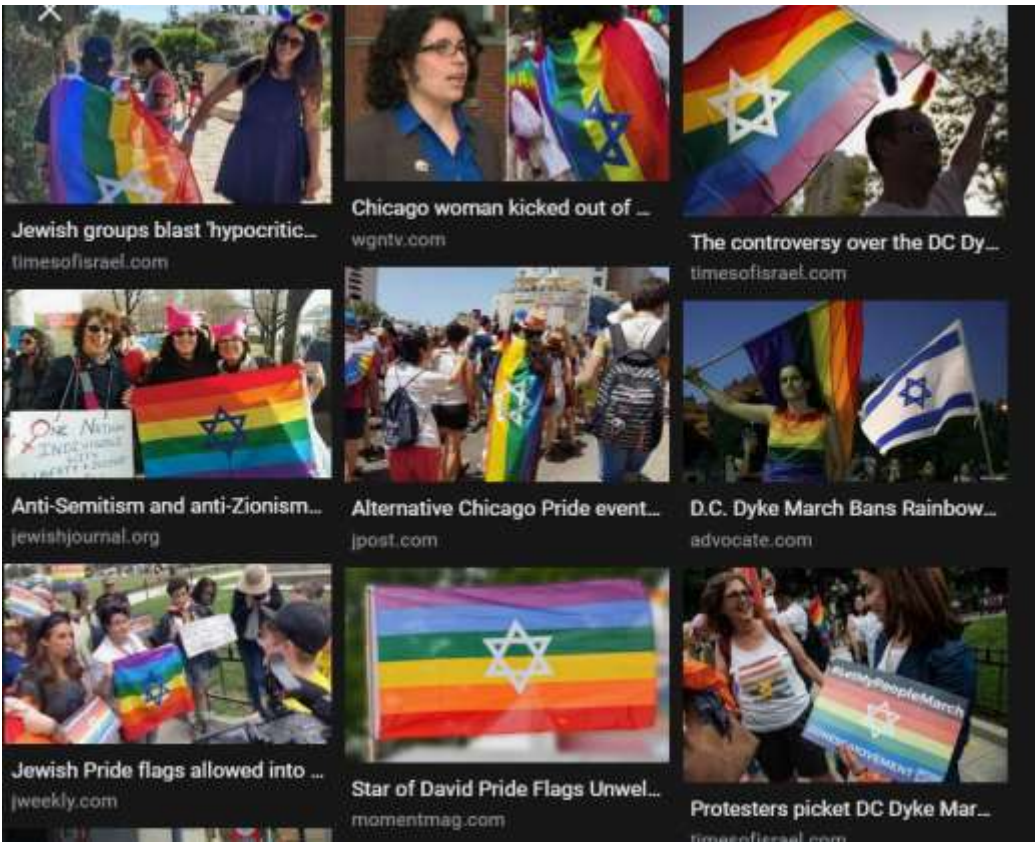

Whether something is able to be maintained at a certain rate or level.

TRANSFORMING OUR WORLD:

**THE 2030 AGENDA FOR
SUSTAINABLE DEVELOPMENT**

The rainbow flag is a symbol of lesbian, gay, bisexual, and transgender (LGBT) pride and LGBT social movements. Also known as the gay pride flag or LGBT pride flag, the colors reflect the diversity of the LGBT community and the spectrum of human sexuality and gender. Using a rainbow flag as a symbol of gay pride began in San Francisco, California, but eventually became common at LGBT rights events worldwide.

TRANSFORMING OUR WORLD:

THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

Still with me Scott?

Transforming our world: the 2030 Agenda for Sustainable Development

Preamble

This Agenda is a plan of action for people, planet and prosperity. It also seeks to strengthen universal peace in larger freedom. We recognize that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development.

All countries and all stakeholders, acting in collaborative partnership, will implement this plan. We are resolved to free the human race from the tyranny of poverty and want and to heal and secure our planet. We are determined to take the bold and transformative steps which are urgently needed to shift the world on to a sustainable and resilient path. As we embark on this collective journey, we pledge that no one will be left behind.

Using the term: **eradicating poverty** - ad nauseam – as the excuse/ reason for the whole agenda

On **1 January 2016**, the 17 Sustainable Development Goals (SDGs) of the 2030 Agenda for Sustainable Development — adopted by world leaders in September 2015 at an historic UN Summit — officially came into force.

<https://www.un.org> › [sustainabledevelopment](#) › [developm...](#) ⋮

[The Sustainable Development Agenda - the United Nations](#)

6 years later, what have they achieved?

Eradicated poverty yet?

Or impoverished us more.....?

Let see 6 years in the future.....

Poverty eradicated / or all people enslaved?

The 17 Sustainable Development Goals and 169 targets which we are announcing today demonstrate the scale and ambition of this new universal Agenda. They seek to build on the Millennium Development Goals and complete what they did not achieve. They seek to realize the human rights of all and to achieve gender equality and the empowerment of all women and girls. They are integrated and indivisible and balance the three dimensions of sustainable development: the economic, social and environmental.

Declaration

Introduction

1. We, the Heads of State and Government and High Representatives, meeting at United Nations Headquarters in New York from 25 to 27 September 2015 as the Organization celebrates its seventieth anniversary, have decided today on new global Sustainable Development Goals.
2. On behalf of the peoples we serve, we have adopted a historic decision on a comprehensive, far-reaching and people-centred set of universal and transformative Goals and targets. We commit ourselves to working tirelessly for the full implementation of this Agenda by 2030. We recognize that eradicating poverty in all its forms and dimensions,

566 x 760

REPRESENTANTS DU PEUPLE FRANÇOIS

Sustainable Development Goals

Goal 1. End poverty in all its forms everywhere

Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Goal 3. Ensure healthy lives and promote well-being for all at all ages

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Goal 5. Achieve gender equality and empower all women and girls

Goal 6. Ensure availability and sustainable management of water and sanitation for all

Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Goal 10. Reduce inequality within and among countries

Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

Goal 12. Ensure sustainable consumption and production patterns

Goal 13. Take urgent action to combat climate change and its impacts*

Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development

Goal 15. Protect, restore and promote sustainable use of terrestrial ecosystems, sustainably manage forests, combat desertification, and halt and reverse land degradation and halt biodiversity loss

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

* Acknowledging that the United Nations Framework Convention on Climate Change is the primary international, intergovernmental forum for negotiating the global response to climate change.

TRANSFORMING OUR WORLD:

THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

Still with me Scott?

Goal 1. End poverty in all its forms everywhere

Goal 1 is really: Population Control

1.2 By 2030, reduce at least by half the proportion of men, women and children of all ages living in poverty in all its dimensions according to national definitions

Georgian guidestones maintain population to 500m in balance with nature

Goal 2. End hunger, achieve food security and improved nutrition and promote sustainable agriculture

Goal 2 is really eradicating all private farming and natural food

Bill Gates buying all land

Chemtrails

Eating bugs (bugs found in more and more foods off the shelf)

Celebrities promoting bugs and school programmes introducing bug tasting in class

Vaxxination of all animals

Farm murders

Land expropriation

Non GMO seed extremely hard to find

GMO seed use enforced by bullying to the extent that in countries like India farmers choose suicide (watch movie David vs Monsanto)

2.5 By 2020, maintain the genetic diversity of seeds, cultivated plants and farmed and domesticated animals and their related wild species, including through soundly managed and diversified seed and plant banks at the national, regional and international levels, and promote access to and fair and equitable sharing of benefits arising from the utilization of genetic resources and associated traditional knowledge, as internationally agreed

2.a Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries

Goal 3. Ensure healthy lives and promote well-being for all at all ages

Goal 3 really about exterminating all old people and getting healthy people sick through pharmacia

3.1 By 2030, reduce the global maternal mortality ratio to less than 70 per 100,000 live births

[https://care.org.uk › news › 2021/01 › more-than-42-m...](https://care.org.uk/news/2021/01/more-than-42-million-global-abortions-in-2020) ⋮

More than 42 million global abortions in 2020 - CARE

19 Jan 2021 — The biggest cause of deaths in **2020** was **abortion**, according to ... looks at health statistics, **global** populations and other relevant data.

Abortion clinics funded by?..... The same people wearing the Sustainable development logos
George Soros / Bill Gates / Warren Buffet

In 2019, the pharmaceuticals and health products industry in the United States spent the **most on lobbying** efforts, totaling to about 295.17 million U.S. dollars. In the same year, the automotive industry spent about 68.92 million U.S. dollars on **lobbying**.

Mar 4, 2020

[www.statista.com](https://www.statista.com/statistics/top-lobbying-industries-in-t...) › statistics › top-lobbying-industries-in-t...

• [Leading lobbying industries U.S. 2019 | Statista](#)

“Lobbying” means **influencing or attempting to influence legislative action or nonaction through oral or written communication or an attempt to obtain the goodwill of a member or employee of the Legislature.**

03 Sept 2021

<https://www.ncsl.org/50-state-chart-lobby-definitions> ⋮

[How States Define Lobbying and Lobbyist](#)

57. We recognize that baseline data for several of the targets remains unavailable, and we call for increased support for strengthening data collection and capacity-building in Member States, to develop national and global baselines where they do not yet exist. We commit to addressing this gap in data collection so as to better inform the measurement of progress, in particular for those targets below which do not have clear numerical targets.

Data collection

Goal 4. Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all

Goal 4 really about total control over our children

4.a Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all

Pass rates decline

Minimum requirements for passing decline

Educated but unable to do the work

Unequal opportunity for achievers to access tertiary education and the workplace

Due to BEE

What is taught? Have you seen the history lessons? The sick curriculum on gender and sex.

Every category drowned with evolutionary beliefs.

Homeschooling under massive attack, where kids actually learn stuff they can apply and use

Goal 5. Achieve gender equality and empower all women and girls

Goal 5 really about the gay gods and feminism

Goal 6. Ensure availability and sustainable management of water and sanitation for all

Goal 6 really about total control over all water supply (many investigations on how fluoride and other poisons might be distributed slowly Also an excellent distribution channel in the future for whatever they want humanity to consume)

Goal 7. Ensure access to affordable, reliable, sustainable and modern energy for all

**Goal 7 really about forcing submission
by withholding energy and taxing solar
users**

Goal 8. Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all

Goal 8 in direct contrast to what they have been doing historically

8.3 Promote development-oriented policies that support productive activities, decent job creation, entrepreneurship, creativity and innovation, and encourage the formalization and growth of micro-, small- and medium-sized enterprises, including through access to financial services

For those who will bow to the Beast system only

BEE?

Super tax for small business?

Allowing strikes

Labour law inequality

Closing small business during lock down

Goal 9. Build resilient infrastructure, promote inclusive and sustainable industrialization and foster innovation

Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

Goal 9+11 really about developing Smart Cities and the Smart Infrastructure

9.4 By 2030, upgrade infrastructure and retrofit industries to make them sustainable, with increased resource-use efficiency and greater adoption of clean and environmentally sound technologies and industrial processes, with all countries taking action in accordance with their respective capabilities

11.b By 2020, substantially increase the number of cities and human settlements adopting and implementing integrated policies and plans towards inclusion, resource efficiency, mitigation and adaptation to climate change, resilience to disasters, and develop and implement, in line with the Sendai Framework for Disaster Risk Reduction 2015-2030, holistic disaster risk management at all levels

Goal 10. Reduce inequality within and among countries

Goal 10 will ensure all nations gather around the tower of Babel and worship the Beast

Basic government income equalizing all income groups

Higher income groups / countries / individuals compensating for lower income levels

Only 2 levels of income – the super rich – and the rest.

10.5 Improve the regulation and monitoring of global financial markets and institutions and strengthen the implementation of such regulations

10.7 Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies

While allowing millions of refugees into the West....
remember this goal when we get to who's behind mass
migrant crises

Goal 12 really about controlling and dictating your patterns and getting rid of the “useless eaters”

12.4 By 2020, achieve the environmentally sound management of chemicals and all wastes throughout their life cycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water and soil in order to minimize their adverse impacts on human health and the environment Will you stop chemtrails then????

12.8 By 2030, ensure that people everywhere have the relevant information and awareness for sustainable development and lifestyles in harmony with nature Meaning media indoctrination

12.a Support developing countries to strengthen their scientific and technological capacity to move towards more sustainable patterns of consumption and production

Goal 13. Take urgent action to combat climate change and its impacts*

Goal 13 will help them implement their climate hoax Agenda

* Acknowledging that the United Nations Framework Convention on Climate Change is the primary international, intergovernmental forum for negotiating the global response to climate change.

13.a Implement the commitment undertaken by developed-country parties to the United Nations Framework Convention on Climate Change to a goal of mobilizing jointly \$100 billion annually by 2020 from all sources to address the needs of developing countries in the context of meaningful mitigation actions and transparency on implementation and fully operationalize the Green Climate Fund through its capitalization as soon as possible

Goal 14. Conserve and sustainably use the oceans, seas and marine resources for sustainable development

Goal 14+15 conserve and use only as they allow and mandate

Goal 16. Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels

Goal 16 really makes them look so nice and heroic, but investigate their “institutions”

16.1 Significantly reduce all forms of violence and related death rates everywhere

16.2 End abuse, exploitation, trafficking and all forms of violence against and torture of children Will that include the elite pedophile adrenochrome rings?

16.3 Promote the rule of law at the national and international levels and ensure equal access to justice for all Lady liberty is still blindfolded, the man with the most expensive lawyer still wins

16.4 By 2030, significantly reduce illicit financial and arms flows, strengthen the recovery and return of stolen assets and combat all forms of organized crime Will that include the Royal and CIA drug trade?

16.5 Substantially reduce corruption and bribery in all their forms

16.6 Develop effective, accountable and transparent institutions at all levels

16.7 Ensure responsive, inclusive, participatory and representative decision-making at all levels

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

Goal 17 really just another way of saying their puppet millionaires will run all countries.

17.1 Strengthen domestic resource mobilization, including through international support to developing countries, to improve domestic capacity for tax and other revenue collection

Armed forces will be mobilized yes

17.3 Mobilize additional financial resources for developing countries from multiple sources

17.4 Assist developing countries in attaining long-term debt sustainability through coordinated policies aimed at fostering debt financing, debt relief and debt restructuring, as appropriate, and address the external debt of highly indebted poor countries to reduce debt distress

Ensuring the African continent who is crippled with international debt, stay in debt, and get more debt, because as the Bible says: Pro 22:7 The rich ruleth over the poor, and the borrower is servant to the lender.

Goal 17. Strengthen the means of implementation and revitalize the Global Partnership for Sustainable Development

Still busy with Global partnerships.... Let's see what else:

17.6 **Enhance** North-South, South-South and triangular regional and international cooperation on and **access to science, technology and innovation and enhance knowledge sharing on mutually agreed terms**, including through improved coordination among existing mechanisms, in particular at the United Nations level, and **through a global technology facilitation mechanism** !

17.10 **Promote a universal, rules-based, open, non-discriminatory and equitable multilateral trading system under the World Trade Organization**, including through the conclusion of negotiations under its **Doha Development Agenda** *

Sounds good, until you research World Trade Organisation and Doha Development agenda on ground level....

Since 2008, the negotiation has been **deadlocked** due to differences in positions on major issues **between** members of **developed countries** led by the EU, the U.S., and Japan, and the **developing countries** represented by India, Brazil, China, South Korea and South Africa. The most pressing of these divisions are on agriculture, industrial tariffs and non-tariff barriers, services and trade remedies. The framework of the WTO favors rich countries as it systematically supports the interests of **multinational corporations**. The economies of poor countries, which have less negotiating power against the big trading countries, normally suffers from the **damaging impacts of the current unfair trading system**.

The year after, developing countries were subjected to tremendous pressure in Doha to agree to the launching of a new round in order to “save” the global economy. Much arm-twisting and threats of retaliation for “non-cooperation” in Seattle coupled with offers of massive aid packages to the “recalcitrant” developing countries took place. The notorious tactic of excluding most of the developing countries from decision-making was also at play. Many developing countries complained of secret meetings that were effectively confined to a select group of about 30 to 35 governments handpicked by the EU and U.S. This underhanded trade diplomacy resulted in the Doha Development Round, which many pointed out had little to do with development and everything to do with expanding developed countries’ access to developing country markets

Open Borders, Media Censorship

Why is there a migrant crisis in the Mediterranean? Why are NGOs involved? Because there is an extensive network of open borders activists and organizations behind it; many of them are directly funded by or cooperated with George Soros' Open Society. The network of the "immigration lobby" in Italy is made up of International NGOs financed by the Open Society Foundation (green), Italian NGOs financed by OSF (blue), and organizations with shared projects with OSF (purple). This is just in Italy.....

TRANSFORMING OUR WORLD:

THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

Still with me Scott?

5. But Mada, how do a few men think they will run the whole world?

Lets look at Agenda Goal 17.18

17.18 By 2020, enhance capacity-building support to developing countries, including for least developed countries and small island developing States, to increase significantly the availability of high-quality, timely and reliable data disaggregated by income, gender, age, race, ethnicity, migratory status, disability, geographic location and other characteristics relevant in national contexts

61. The Agenda's Goals and targets deal with the means required to realize our collective ambitions. The means of implementation targets under each Sustainable Development Goal and Goal 17, which are referred to above, are key to realizing our Agenda and are of equal importance with the other Goals and targets. We shall accord them equal priority in our implementation efforts and in the global indicator framework for monitoring our progress.

FINANCING FOR DEVELOPMENT

13-16 JULY 2015 • ADDIS ABABA • ETHIOPIA

TIME FOR GLOBAL ACTION

Addis Ababa Action Agenda
un.org

62. This Agenda, including the Sustainable Development Goals, can be met within the framework of a revitalized Global Partnership for Sustainable Development, supported by the concrete policies and actions outlined in the Addis Ababa Action Agenda,³ which is an integral part of the 2030 Agenda for Sustainable Development. The Addis Ababa Action Agenda supports, complements and helps to contextualize the 2030 Agenda's means of implementation targets. It relates to domestic public resources, domestic and international private business and finance, international development cooperation, international trade as an engine for development, debt and debt sustainability, addressing systemic issues and science, technology, innovation and capacity-building, and data, monitoring and follow-up.

Role of citizens in building smart city
geospatialworld.net

THE SMART CITIZEN KIT: HARNESSING CITIZEN SCIENCE

Innovation Type: Community Organized

Urban challenge

Idealistic smart city visions can be overwhelming for governments looking to transform their communities. They are often associated with costly IoT sensors and technocratic experts at the helm – but when citizens are equipped with the tools and skills to participate in data collection, thousands or millions of data points could potentially be leveraged by city researchers. With this vision in mind, the Barcelona Fab Lab innovation centre set out to develop a citizen science ecosystem to complement professional environmental databases in Europe.

70. We hereby launch a Technology Facilitation Mechanism which was established by the Addis Ababa Action Agenda in order to support the Sustainable Development Goals. The Technology Facilitation Mechanism will be based on a multi-stakeholder collaboration between Member States, civil society, the private sector, the scientific community, United Nations entities and other stakeholders and will be composed of a United Nations inter-agency task team on science, technology and innovation for the Sustainable Development Goals, a collaborative multi-stakeholder forum on science, technology and innovation for the Sustainable Development Goals and an online platform.

This is what they want!!! To control everything, own everything and be at the top of everyone.

Why?

It's the only way they can fulfil their Master's instructions and get the whole world to wonder after the Beast.

Because THAT is the real Agenda.

The rest is just to make YOU believe what they are busy with, is for your good (1984)

BIG BROTHER

10 REGIONS

AROUND THE WORLD

Foro de São Paulo

From Wikipedia, the free encyclopedia

Foro de São Paulo (FSP), also known as the São Paulo Forum, is a conference of leftist political parties and other organizations from Latin America and the Caribbean. It was launched by the Workers' Party (Portuguese: Partido dos Trabalhadores - PT) of Brazil in 1990 in the city of São Paulo.

The Forum of São Paulo was constituted in 1990 when the Brazilian Workers' Party, after more than a decade of oppression by the military dictatorship, approached other parties and social movements of Latin America and the Caribbean with the objective of initiating the new international corridor after the fall of the Berlin Wall and the consequences of the implementation of what were taken as neoliberal policies adopted at the time by contemporary right-leaning governments in the region, the stated main objective of the conference being to argue for alternatives to neoliberalism.^[1]

The first meeting held in São Paulo in July 1990 was attended by members of 40 parties and organizations from Latin America and the Caribbean. The original name given to the meeting was Meeting of Left and Anti-imperialist Parties and Organizations of Latin America (Portuguese: Encontro de Partidos e Organizações de Esquerda e Antimperialistas da América Latina). Since the 1991 meeting in Mexico City, it started being alternately called Foro de São Paulo in reference to the location of the first meeting.^[2] The following meetings were held in Managua (1992), Havana (1993), Montevideo (1995), San Salvador (1996), Porto Alegre (1997), Mexico City (1998), Managua (2002), Havana (2003), Antigua Guatemala (2002), Guayaquil (2003), São Paulo (2005), San Salvador (2007), Montevideo (2008), Mexico City (2009), Buenos Aires (2010), Managua (2011), Caracas (2012), São Paulo (2013), La Paz (2014), Mexico City (2015), San Salvador (2016), Managua (2017) and Havana (2018).

The Foro's chief authority is its meeting itself. Between meetings, the Foro is represented by an Executive Group (Grupo de Trabalho) composed of a sample of its overall membership that usually meets twice a year as well as by an Executive Secretariat (Secretariado Executivo).^[3]

Including FARJ, EUL, PCC and EPJ-Terrorist Representatives

~~modalities for the forum and the online platform.~~ The 10 representatives will be appointed by the Secretary-General, for periods of two years. The task team will be open to the participation of all United Nations agencies, ~~funds and programmes and the functional commissions of the Economic and Social Council~~ and it will initially be ~~composed of the entities that currently integrate the informal working group on~~ technology facilitation, namely, the Department of Economic and Social Affairs of the Secretariat, the United Nations Environment Programme, the United Nations Industrial Development Organization, the United Nations Educational, Scientific and Cultural Organization, the United Nations Conference on Trade and Development, the International Telecommunication Union, the World Intellectual Property Organization and the World Bank.

Rev 13:1 And I stood upon the sand of the sea, and saw a beast rise up out of the sea, having seven heads and ten horns, and upon his horns ten crowns,

Rev 17:12 And the ten horns which thou sawest are ten kings, which have received no kingdom as yet; but receive power as kings one hour with the beast.

Rev 17:13 These have one mind, and shall give their power and strength unto the beast.

Dan 7:24 And the ten horns out of this kingdom are ten kings that shall arise: and another shall rise after them; and he shall be diverse from the first

Dan 7:25 And he shall speak great words against the most High, and shall wear out the saints of the most High, and think to change times and laws: and they shall be given into his hand until a time and times and the dividing of time.

Dan 2:41 And whereas thou sawest the feet and toes,

Dan 2:42 And as the toes of the feet were part of iron, and part of clay,

Dan 2:44 And in the days of these kings shall the God of heaven set up a kingdom, which shall never be destroyed: and the kingdom shall not be left to other people, but it shall break in pieces and consume all these kingdoms, and it shall stand for ever.

TRANSFORMING OUR WORLD:

THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

Still with me Scott?

6. Ok, I understand, but they would need a massive support structure to reach all THESE goals?

(i) They will benefit from the active support of the United Nations system and other multilateral institutions.

Some of the important Multilateral Organisations

UN Security Council (UNSC)

- The United Nations Security Council (UNSC) is one of the UN's six main organs, with responsibilities that include safeguarding international peace and security, ~~recommending new UN members to the General Assembly and approving any UN Charter modifications.~~
- In 1945, the United Nations Charter established the Security Council. ~~It is one of the United Nations' six primary organs.~~
- Its major responsibility is to work to keep the world safe and secure.

1Th 5:3 For when they shall say,
Peace and safety; then sudden
destruction cometh upon them, as
travail upon a woman with child;
and they shall not escape.

1Th 5:4 But ye, brethren, are not
in darkness, that that day should
overtake you as a thief.

Jer 14:13 Then said I, Ah, Lord GOD! behold, the prophets say unto them, Ye shall not see the sword, neither shall ye have famine; but I will give you assured peace in this place.

Jer 14:14 Then the LORD said unto me, The prophets prophesy lies in my name: I sent them not, neither have I commanded them, neither spake unto them: they prophesy unto you a false vision and divination, and a thing of nought, and the deceit of their heart.

Bay of Bengal Initiative for Multi-Sectoral Technical and Economic Cooperation (BIMSTEC)

BRICS

- The acronym BRICS stands for **Brazil, Russia, India, China, and South Africa**, a grouping of the world's leading emerging economies.

Regional Comprehensive Economic Partnership (RCEP)

- The Regional Comprehensive Economic Partnership (RCEP) is a mega-regional economic agreement that ASEAN and Free Trade Agreement (FTA) member partners have been negotiating since 2012.

United Nations Human Rights Council

International Criminal Court

World Health Assembly (WHA)

- The World Health Assembly (WHA) is the forum through which the 194 member states of the World Health Organisation (WHO) govern the organisation.

Open Skies Treaty

- The Open Skies Treaty allows each state-party to conduct short-notice, unarmed intelligence-gathering flights over the entire territory of the other state party in order to collect data on military forces and activities.

Group of Seven (G7)

- The G7 (or Group of Seven) is an intergovernmental political forum made up of Canada, France, Germany, Italy, Japan, the United Kingdom, and the United States.

G20

- The G20 is an informal group made up of representatives from 19 countries and the European Union, as well as the World Bank and the International Monetary Fund.

Shanghai Cooperation Organisation (SCO)

- The SCO is an intergovernmental international permanent organisation.
- It's a political, economic, and military organisation based in Eurasian countries that aim to keep the region peaceful, secure, and stable.

The organisation of the Petroleum Exporting Countries (OPEC)

- The Organisation of Petroleum Exporting Countries is a 13-country intergovernmental organisation.
- The Organisation of Petroleum Exporting Countries (OPEC) regulates the amount of oil that each country can produce.

Few Multilateral Organisations

CERN – fully engaged with the Sustainable Development Goals

By Charlotte Lindberg Warakaulle
Charlotte Lindberg Warakaulle is the Director for

The UN's Sustainable Development Goals are very close to our core mission

8 AUGUST, 2017

At the end of 2012, CERN became an Observer to the United Nations General Assembly. This was an important move designed to allow CERN to offer the General Assembly and the United Nations family the benefit of its scientific expertise with a view to promoting the essential role of basic science for peace and development.

The UN Secretary-General, Ban Ki-moon, after paying tribute to the scientific achievements of CERN, expressed appreciation for CERN's cooperation with the UN and stated “(...) I invite CERN to strengthen its engagement with the UN System”. I think this is an opportunity for our Organization, which will also contribute towards convincing the Member States that the money they invest at CERN is well spent, both for the scientific results it produces and for the benefits generated in other fields, including the social, cultural and economic growth of society.

Participation in scientific collaborations carrying out major experiments at CERN, as well as in the Worldwide LHC Computing Grid, future accelerator studies and certain other projects, are governed by multilateral Memoranda of Understanding (MoUs), signed by the participating institutes and their funding agencies and by CERN as the Host Laboratory. MoUs specify the financial and in-kind resources that the participants contribute to the construction, maintenance and operation as well as the upgrade of an experiment or project.

WHO renames SARS-CoV-2 variants

From alpha to lambda

Variants of concern

WHO label	Lineage	First documented samples
α Alpha	B.1.1.7	UK Sep. 2020
β Beta	B.1.351	South Africa May 2020
γ Gamma	P.1	Brazil Nov. 2020

Cepa/variante	Lanzamiento
Δ Delta	jun 2021
ϵ Epsilon	jul 2021
ζ Zeta	ago 2021
η Eta	sep 2021
θ Theta	oct 2021
ι Iota	nov 2021
κ Kappa	dic 2021
λ Lambda	ene 2022
μ Mu	feb 2022
ν Nu	mar 2022
ξ Ksi	abr 2022
\omicron Omicron	may 2022
π Pi	jun 2022
ρ Rho	jul 2022
σ Sigma	ago 2022
τ Tau	sep 2022
υ Upsilon	oct 2022
ϕ Phi	nov 2022
χ Chi	dic 2022
ψ Psi	ene 2023
ω Omega	feb 2023

These are the PLANNED COVID-19 VARIANTS - just look at the dates when they will be "released" to the media.

Noun [edit]

Omega variant (plural **Omega variants**)

1. A hypothetical, extremely virulent strain of the SARS-CoV-2 virus that causes COVID-19. [quotations ▼]

TRANSFORMING OUR WORLD:

THE 2030 AGENDA FOR SUSTAINABLE DEVELOPMENT

Still with me Scott?

7. Mada, we have talked to you about 5G and Bible Prophecy, we have talked to you about Genetic Manipulation and the Noahide Laws, but to see these goals actually spelled out right in front of us, probably makes a lot of the viewers very fearful?!!

Play Video Scott

Judges 7 – 32000 children of God called to fight the enemy. (see that in today's context, to answer your question for your viewers who might be overwhelmed by all of this)

22000 were sent home because they were afraid (the root of that fear was their greed – for their own survival)

the 9700 who remained, who could put their fear and their greed aside, were tested by the river and were sent home because their NEEDS was greater than their commitment to fight for their God and His people

Only 300 had more passion than fear

Could sacrifice their greed

And put the responsibility of being vigilant above their human rights and their natural instinct and their most basic need like water. And what happened? It's impossible for 300 to fight against a whole Midianite and Amalikite army, yet they won!!

Luk 9v3 – go on this journey – don't worry about taking an extra coat or a purse.... Really???

Yes, Deut 29v5 – their clothes did not wear out for 40 years.

Are we really prepared to endure to the end – maybe loose all the material, worldly things that everyone is so greedy and needy for? Prepared to be only a few, but stand with our God to the end, to see His victory over the enemy. Don't be afraid. Learn to face and overcome your greed and your need for survival because THAT is the root of our fear. Believe in God. Believe in the AlephTav, who wins at the end!! And who will resurrect you and your family if you stand with Him.
